new drainage technologies born of experience

PULL & PUSH

Thanks to double integrated valve drainage procedure can be completed by mean of simple "pull and push" manoeuvres. Three-way stopcock no longer needed.

EXTENSION LINE

By connecting an extension line it improves patient comfort in case of extended use of the device and more flexibility for users.

VERESS NEEDLE

retractable tip to achieve safe and efficient access. The blunt tip retracts during penetration and extends when the needle enters free space.

DOUBLE INTEGRATED ONE-WAY VALVE

designed to improve comfort and safety of your drainage procedures. The valves ensure patient and users safety by reducing risk of external environment contamination, pneumothorax and fluid leakage.

POLYURETHANE CATHETER:

totally radiopaque, anti kinking and cut-resistant. It is biocompatible and thermosensitive which makes it the first choice for long-term drainage. Larger inner diameter increases drainage flow rate.

Veress needle with luer lock port for primary positioning check.

The best for pneumothorax treatment (primary and secondary), malignant or chronic pleural effusions and uncomplicated empyema.

STANDARD

	CODE	PCS/BOX
Percutaneous drainage Kit - CH 9	10800	6
Percutaneous drainage Kit - CH 12	10801	6
Percutaneous drainage Kit with extension line - CH 9	10802	6
Percutaneous drainage Kit with extension line - CH 12	10803	6
Percutaneous drainage Kit with extension line - CH 15	10830	6

EXTRA LONG*

	CODE	PCS/BOX
Percutaneous drainage Kit with extension line XL- CH 9	10820	6
Percutaneous drainage Kit with extension line XL- CH 12	10821	6

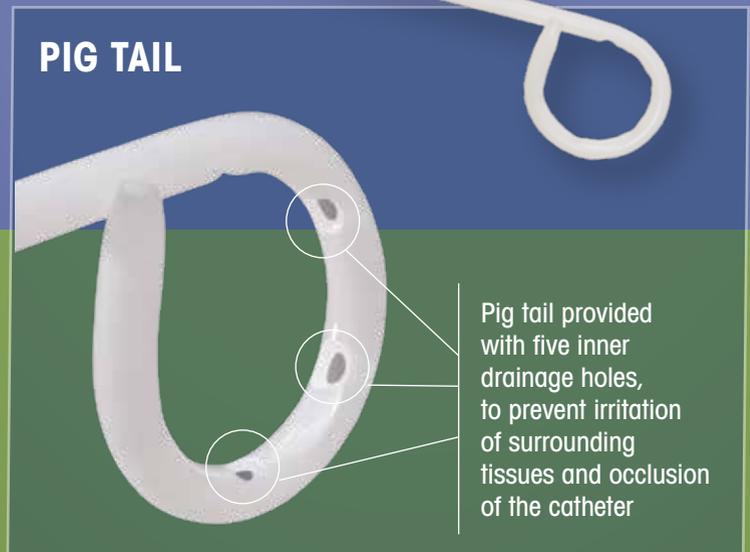

*50% Longer than standard

Particularly suitable for abscess, nephrostomy pericardiocentesis and miscellaneous drainage procedures.

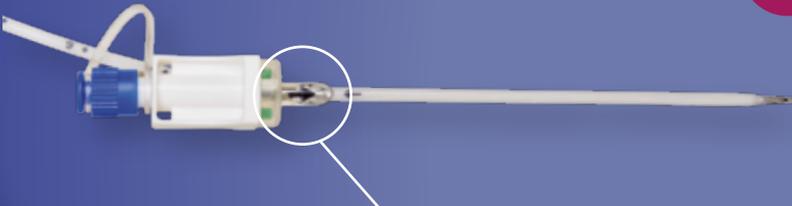

MULTI

	CODE	PCS/BOX
Percutaneous drainage Kit "MULTI" CH 9	10816	6
Percutaneous drainage Kit "MULTI" CH 12	10817	6
Percutaneous drainage Kit "MULTI" with extension line - CH 9	10818	6
Percutaneous drainage Kit "MULTI" with extension line - CH 12	10819	6
Percutaneous drainage Kit "MULTI" with extension line - CH 15	10831	6

The forty centimeters percutaneous drainage design for apical positioning to ease liquids and air evacuation

Dedicated minimal invasive access for veress needle, improves safety and efficient insertion.

FORTY

	CODE	PCS/BOX
Percutaneous drainage Kit with extension line - CH 9	10810	6
Percutaneous drainage Kit with extension line - CH 12	10812	6

ONE SHOT PUNCTURE SET

For pleural drainage of liquids and air, particularly suitable for:
pneumothorax, effusion and low viscosity empyema

BASE

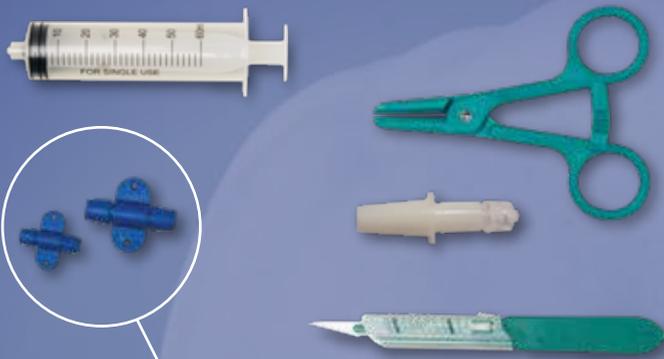

CODE PCS/BOX

Unico Base - gauge 13/ 2,5 mm

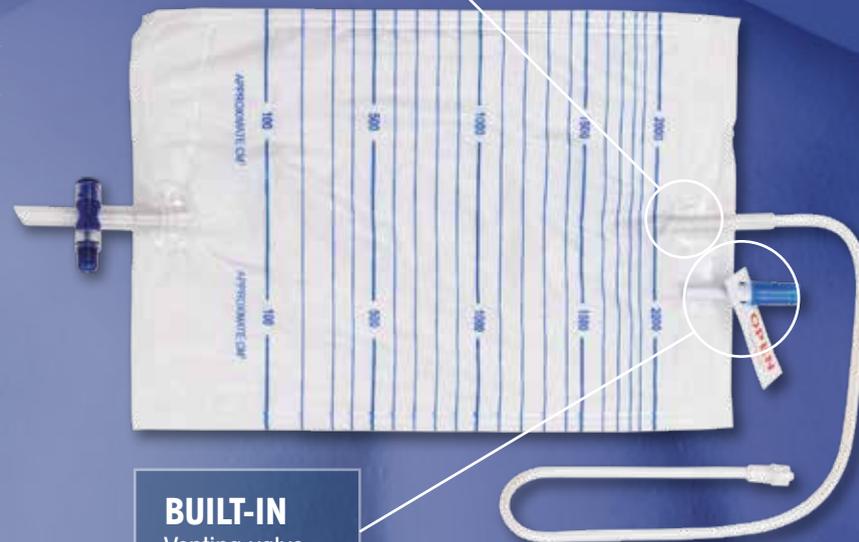

10815 20

ACCESSORIES

	CODE	PCS/BOX
Accessory kit for standard versions (clamp, adapter, scalpel, syringe)	10813	20
Drainage bag	12019	25
Butterfly Fixing Kit	10546	50
Connector for Chest Drain	10548	50
Funnel Adapter	10504	20

Catheter fixing device

INTEGRATED

One-way valve to prevent back flow

BUILT-IN

Venting valve
